

## ROUTE MANAGEMENT SERVICES CARD – THE SOLUTION

Commercial transport companies that utilize the N3 are currently experiencing serious problems relating to the provision of management information and the level of fraud that emanates from their current payment systems.

Zimele has had a toll card solution (the Zimele RMS Toll Card) in place on the N3 national route for several years now. This product has gone a long way toward assisting hauliers in managing their toll usage by providing significant management information. As part of our continued commitment to offer the haulage Industry the best and most innovative service possible, Zimele developed a significantly enhanced system called RMS (Route Management Services). The RMS card is a closed card system, currently usable only for toll charges at De Hoek, Wilge, Tugela, Mooi and Marianhill toll plazas.

The RMS system offers the following benefits :

- A web-based account where your transactions can be viewed on line
- Flexibility in the manner in which reports can be drawn
- Exception reporting, where potentially fraudulent transactions will be picked up automatically by the system
- Plaza name / lane number / date and exact time of transaction
- Consolidated invoices that comply with SARS requirements
- Monthly detailed statements

### The fee structure for the RMS system is as follows :

Cost of card	R85/card
Cost of replacement cards (damaged/lost/expired)	R85/card

*Web access fees - on line detailed management information as per your fleet size :*

1 – 10 vehicles per fleet	R270/month
11 – 50 vehicles per fleet	R480/month
51 – 100 vehicles per fleet	R700/month
101 + vehicles per fleet	R900/month

*Notifications (balance warnings, deposit confirmation etc.)* R1.50/sms

*Multiple log-in/passwords (first one free) per additional user* R20.00/month

From the perspective of tolled highways, the RMS card is the logical route towards an uncomplicated, low risk tolling transaction and offers detailed reports that will significantly facilitate toll fee reconciliation and management control.

Once your application form and fleet list have been received by Zimele, it usually takes a working week to have your cards ready for dispatch. Should you have any further queries, please don't hesitate to contact us!
